

## Phuzion™ PHS

LED High Bay with Uplight

Catalog Number	
Notes	Type

### Description

The Phuzion PHS LED High Bay luminaire takes high-bay lighting to new levels of lumen output with intentional uplight. By marrying the latest in LED technology with the legendary illuminating dynamics of HoloPhane's prismatic glass, PHS is designed for use in applications where uplight may be desired.

Certain airborne contaminants may adversely affect the functioning of LEDs and other electronic components, depending on various factors such as concentrations of the contaminants, ventilation, and temperature at the end-user location. [Click here for a list of substances that may not be suitable for interaction with LEDs and other electronic components.](#)

### Optics

- Prismatic borosilicate glass maintains highest levels of luminosity over time.
- Glass doesn't fade, discolor or otherwise degrade in harsh environments.
- Two distributions (narrow and wide).
- Highly engineered LED system ensures superior uniformity and maximizes spacing.
- 86% Downlight; 14% Uplight is standard.

### Mechanical

- Robust cast aluminum housing with low copper content (0.6% CU content) withstands hot and dirty environments.
- Pendant mount standard. (3/4" entry)
- Optional non-silicone gaskets, ideal for automotive production.
- Several mounting options available, Pendant mount (3/4" entry), Quick Disconnect (3/4" entry or surface mounted), Non-disconnect thru wiring (3/4" entry or surface mounted), Quick Disconnect retrofit, can mount to existing quick disconnect, Non-disconnect retrofit, can mount to existing non-disconnect.

### Electrical

- 70, 80 and 90 CRI are available.
- 3000K, 3500K, 4000K OR 5000K CCT available.
- Fault-tolerant LED light engine continues to provide light even in failure of one LED.
- Luminaire Surge Protection Level: Designed to withstand up to 10kV/5kA per ANSI C82.77-5-2015. Internal fusing standard.
- 93% lumen maintenance at 60,000 hours.
- 0-10V dimming driver is standard, dims to 10%.

### Wireless Networking

- nLight® AIR is the ideal solution for retrofit or new construction spaces where additional wiring can be labor intensive. It is available with or without an integral sensor. Integrated smart sensors or dimming and switching modules must be part of each luminaire in the nLight Air network, which can be grouped to control multiple luminaires. It pairs to other luminaires and wall switches through our mobile app. CLAIRITY PRO, which allows for simple sensor adjustment. The granularity of control with the digital PIR occupancy detection and daylight sensing makes this a great solution for any application.

### Listings

- CSA certified to US and Canadian standards
- Suitable for use in damp locations
- -40 °F (-40 °C) up to 122 °F (50 °C) ambient temperature rating (see chart on page 10)
- Patent D780,972
- DesignLights Consortium® (DLC) qualified product. Not all versions of this product may be DLC qualified. Please check the DLC Qualified Products List at [www.designlights.org](http://www.designlights.org) to confirm which versions are qualified.

### Warranty

5-year limited warranty. This is the only warranty provided and no other statements in this specification sheet create any warranty of any kind. All other express and implied warranties are disclaimed. Complete warranty terms located at: [www.acuitybrands.com/support/warranty/terms-and-conditions](http://www.acuitybrands.com/support/warranty/terms-and-conditions)

**NOTE:** Actual performance may differ as a result of end-user environment and application.

All values are design or typical values, measured under laboratory conditions at 25 °C.

The product images shown are for illustration purposes only and may not be an exact representation of the product.

### Typical Applications

- Retail
- Institutional
- Industrial
- Light manufacturing
- Warehousing
- Convention Centers

### Dimensions: Inches (millimeters) unless otherwise noted.

Diameter: 22.00 (558.8)  
Height: 21.50-25.40 (546.140-645.16)  
Weight: 46.3

## A+ Capable Luminaire

This item is an A+ capable luminaire, which has been designed and tested to provide consistent color appearance and out-of-the-box control compatibility with simple commissioning.

- All configurations of this luminaire meet the Acuity Brands' specification for chromatic consistency
- This luminaire is part of an A+ Certified solution for nLight® control networks marked by a shaded background\*

To learn more about A+, visit [www.acuitybrands.com/aplus](http://www.acuitybrands.com/aplus).

**ORDERING INFORMATION (continued)**

Accessories: Order as separate catalog number.					
PHSCHAIN XIN	X Inch stainless steel safety chain kit ‡	UPH 35SM XXX DWHXD	Universal power hook for use with PHCB accessory, thru-wire/surface mounting. (120-347V) ‡	LPFD	¾" female loop (PF-116)
WGPHS	Wire guard	UPH 35SM L8480 DWHXD	Universal power hook for use with PHCB accessory, thru-wire/surface mounting. (480V) ‡	HKFD	¾" female safety hook (PF-122-A)
		UPH 36SM XXX DWHXD	Universal power hook for use with PHCB accessory, pendant mount. (120-347V) ‡	HKM455	¾" male safety hook (PF-455)
		UPH 36SM L8480 DWHXD	Universal power hook for use with PHCB accessory, pendant mount. (480V) ‡	HKMAR	¾" male anti-rotational hook (PF-129)
				LPMD	¾" male loop (PF-105-B)
				HKMD	¾" male safety hook (PF-121-A)

‡ Option Value Ordering Restrictions & Notes	
Option value	Restriction
AO	Not available with DIM, DIM2, other dimming controls or sensors.
CNP165CD, CNP165CDW	Not available with AO, DIM, DIM2, dimming controls or sensors.
Damp Location Cord Sets	Requires hook option. Must specify voltage. 6' is standard, but other lengths are available. Must specify length in the nomenclature. Example: CPTL16W3FT. NEMA plug configurations: CPTL style with 120V = L5-15P, 208V or 240V = L6-15P, 277V = L7-15P, CPTL20A style with 347V = L24-20P, 480V = L8-20P.
Damp Location Cords (no plug)	Requires hook option. 6' is standard, but other lengths are available. Must specify length in the nomenclature. Example: CNP16W3FT.
DIM	Not available with AO, DIM2, NDT, NR, QD, QR, other dimming controls or sensors.
DIM2	Not available with AO, DIM, NDT, NR, QD, QR, other dimming controls or sensors.
Hooks	Available with PM only. Not available with QR or NR.
Individual Non-dimming Sensors	Available with 120, 277 or 347 only. Not available with other controls or sensors.
NDT	Not available with DIM or DIM2. NDT (non-disconnect thru-wiring) system is made up of 2 parts. The top portion is removable and is meant to be installed in the ceiling. The bottom portion is factory installed to the fixture. The 2 part junction box used on top of the fixture will be empty. Not available with DIM or DIM2.
nLight® Air Wireless	Not available with AO, DIM, DIM2, other controls or sensors.
nLight® Wired	Available with AS, 120, 208, 240 or 277 only. Not available with AO, DIM, DIM2, other controls or sensors.
NLTAIR2 RLSXR6, NLTAIR2 RLSXR10, NLTAIR2 RPP20 D	Normal luminaires (non-emergency) can be used as a normal power sensing device for nearby nLight AIR devices and luminaires with EM emergency options.
OCS	Must specify voltage. Dry location only. Includes PF455 (HKM455) hook.
PHSCHAIN XIN	X denotes length. Chain shipped separately as an accessory. Available in multiple sizes. Replace X with size in inches. Example: PHSCHAIN 120IN = 120 inches or 10 feet.
QD	Not available with DIM or DIM2. The QD (quick disconnect) system is made up of 2 parts. The top portion "QDH" ships separately to be installed in the ceiling. The Bottom portion is factory installed to the fixture. The 2 part quick disconnect will include components to allow voltage to pass between the top and bottom portions. Not available with DIM or DIM2.
QR, NR	Not available with DIM, DIM2, cord, hook or loop options. Shipped without top hanger. Ordering this option assumes the top portion of the QD option (QDH) or the top portion of the NDT option is already installed. This is a for retrofit applications only. Not available with DIM or DIM2.
SCKX	X denotes length. Available in multiple sizes. Replace X with size in inches. Example: SCK120 = 120 inches or 10 feet.
UPH Hangers	Must specify voltage. Damp Listed. Shipped separately from luminaire, requires PHCB.
UPH 35SM L8480 DWHXD, UPH 36PM L8480 DWHXD	Available with PHCBL8480 option only.
UPH 35SM XXX DWHXD, UPH 36PM XXX DWHXD	Available with PHCB option only. XXX denotes voltage.
UPH Cord Sets	Must specify voltage. For new installations, order matching UPH accessory. For existing installations, match PHCB voltage to existing UPH.
